PROFILE

With an engineering background, I demonstrate a **committed** approach and strong **adaptability**. With solid experience in **project management** and a keen interest in data-driven professions, I am seeking a medium- or long-term position starting in October 2026.

EXPERIENCES

Enedis · Project Owner Support

2023-2026

- Support to consultants in the **implementation of policies** for the maintenance and development of civil electrical infrastructures.
- Development of a **Power BI data visualization tool** to support **decision-making** and the implementation and adaptation of policies.
- Planning of major infrastructure maintenance and renovation projects

Aider Donner Agir · Vice-president

2024-2025

- Administrative and field management of a charity organization with **150 members**.
- Management of various projects, including the renovation of a school in Fao (Senegal) and the organization of a gala for 300 attendees in Paris.
- Monitoring of over **3,500 hours** of charitable activities carried out by the organization.

AMMA · Communications Manager

2024-2025

- Designed and implemented a **communication strategy** across digital channels and in-person association events.
- Content creation to promote martial arts and the association's activities.
